1. Introduction

This document has been prepared by for the NZ Central Motorsport and Adventure Park Trust, in collaboration with....

Although the plan is owned and administered by the Park Trust, it has been approved by the Tasman District Council on the recommendation of the Medical Officer of Health.

The purpose of this document is to set out procedures, actions and processes relating to Wastewater Management, including:

- Types of wastewater systems
- Location of systems and facilities
- Power supply
- Wastewater treatment
- Minimum design standards
- Discharge of treated wastewater
- Accidental discharge of untreated wastewater
- System Maintenance
- Monitoring

This document is part of the Operational Plan for the Park, and is expected to be used as a plan of actions.

2. Management Plan Objectives

The objectives of this management plan are as follows:

- a. To ensure wastewater systems are designed, installed, operated and maintained to acceptable standards.
- b. To comply with any relevant legislation, rules or regulations.
- c. To contain and treat wastewater to ensure risk of contamination to the environment and public health is prevented and avoided.

3. Types of Wastewater Systems

4. Locations of Systems and Facilities

5. Power Supply

6. Minimum Design Standards

7. Wastewater Treatment

8. Discharge of Treated Wastewater

9. Accidental Discharge of Untreated Wastewater

10. System Maintenance

11. Monitoring
